COUNCIL GRANTS LIBRARY FURTHER SUPPORT

At the regular meeting of the outgoing council, held on Monday night, a number of bills were passed for payment and the minutes of previous regular meeting were approved as read.

A number of applications for relief were considered.

A report was received from the Library Board, accompanied by communications from Rev. J. W. Smith, B.D., and J. E. Gillis, B.A., representing the board, asking council's consideration of further grant to the library. Following minor opposition from two members of the council, the mayor's motion that a grant of \$250 be made, covering the first half of 1931, was almost unanimously supported.

The request for special electric light rate for the Columbus Club, formerly the Blairmore Opera house, was laid over for consideration at next meeting.

ANNUAL MEETING OF RATEPAYERS

The annual meeting of ratepayers of the Town of Blairmore and Blairmore School District No. 628, held on Friday night last at the school house, was fairly well attended.

The chair was occupied by Mr. W. H. Chappell, and reports were read by Mr. A. J. Kelly as secretary.

The financial statement disclosed that both the town and school district were in excellent shape, financially, and that outstanding unaccrued indebtedness—debentures—amounted to only \$12,000 for the town and \$5787 for the school district, while general surpluses stood: town \$51,197 and school \$39,478. This latter amount includes \$1456 on hand and \$8750.27 in a school trust account. Mayor Farmer reviewed the work of the year for the council, while Mr. Chappell dealt at length with the progress of the schools.

MUNICIPAL ELECTIONS ON MONDAY NEXT

Nominations on Monday last resulted in the following:

J. H. Farmer, for mayor, re-elected by acclamation.

C. J. Tompkins, J. Angus McDonald and W. H. Chappell, for school trustees, all re-elected by acclamation.

For council, the following were nominated: Rinaldo Fumigalli, Mark Sartoris, W. L. Evans, W. McVey and W. Oakes. Messrs. Sartoris and McVey are re-election.

Elections for councillors will take place on Monday next, the poll being open between 10 a.m. and 7 p.m.

INSTITUTE PUBLIC LIBRARY

The following books are being placed on the shelves this week:

Fiction—"The Coastlanders," by Cronin; "Dan Barry's Daughter," by Max Brand; "The Treasure of the Lake," by Haggard; "Drums," by James Boyd; "The Golden Horseshoe," by Aitken.

Juvenile Fiction—"The Young Carthaginian," by G. A. Henty; "The Cat of the Bubbles," by G. A. Henty; "Tom Swift and His Motorboat," by Appleton; "Beautiful Joe," by Saunders.

Non-Fiction—"The Woman—Bless Her," by Marjory MacMurchy; "Stories of Brave Dogs," edition by M. H. Carter; "The Child's Book of American Biography," by Stimpson.

Library hours: Tuesdays, Thursdays and Saturdays from 7 to 9 p.m.

D. M. J. Conway, former principal of the Blairmore school, was one of the speakers at the Burns' anniversary celebration at Jasper on January the 23rd. Dr. O'Hagan was also a speaker.

BLAIRMORE BEARCATS TIE WITH COLEMAN CANADIANS

In one of the fastest games this season, Blairmore last night blanked Coleman, by a 3-0 score, before the largest audience of fans since the good old times of 1914-15. The first game in the play-off for the section of our intermediate league, on Friday night at Coleman, resulted in a draw.

Coleman were declared winners of the first section, and Blairmore winners of the second section; so that a play-off for the local league is still necessary.

We understand that two games are to be played, total goals to count. The first game will be played on Saturday, followed by the final on Monday. See bills for further particulars. The winners of this series will meet Claresholm early next week.

Among the fans last night were noticed large numbers from Calgary, Lethbridge, Winnipeg, Vancouver, Macleod, Fernie, Pincher Creek, Waterton Lakes and local district towns.

The game last night was very satisfactorily refereed by "Doc" Barbour, of Bellevue.

BASKETBALL

Two interesting games of basketball are billed for Saturday night at the local Columbus Club (formerly Blairmore opera house). Starting at 8.45, Pincher Creek high school girls will meet the Natal high school girls' team, to be followed by a game between Natal United men's team versus the Blairmore Columbus team.

FERNIE GIRL, MISS MILLS, WEDS GERMAN COUNT

A romantic wedding and one of widespread interest in Alberta University circles, and in society, took place at Edmonton on Sunday, when Count Bernard Kern, a young German nobleman, who is holidaying in Canada, married Miss Audrey Mills, a student in her third year arts at the University of Alberta.

Count Kern is a son of the late Leo, Count Kern, and Louisa, Countess Kern, of Berlin. He is a graduate in engineering of the University of Berlin and is at present holidaying in Canada after 12 years in the tropics, in South America, and in Africa.

Miss Mills is a daughter of Mr. and Mrs. Leslie Albert Mills, of Fernie, British Columbia, and is very popular with the students at the university, and at Pembina hall, where she has been in residence for three years. She is a member of Alpha Upsilon sorority.

It was during the summer holidays at Fernie that the young people first met and they did not see each other again until Count Kern's arrival in Edmonton only two or three weeks ago. The wedding at McDougall church, Edmonton, on Sunday afternoon was a very quiet one, the Rev. George Villet officiating.

Count and Countess Kern are stopping at the Macdonald hotel at Edmonton until Thursday. They will spend a few weeks at Fernie with the bride's family before going on to the coast, and expect to be twelve months in Canada before returning to East Africa.—Ex.

ARGENTINE'S CAPITAL

Buenos Aires, capital of the Argentine and objective of the Canadian Trade and Pleasure cruise party which leaves Halifax, February 21, aboard the C.N.S. Prince Robert, has just twice the population of Montreal which is the largest city in Canada. The Argentine's population is about the same as Canada's, ten million. The Canadian party will arrive in the South American country during its early autumn.

102 million more cups of Salada tea were consumed in 1930 than in 1929 by the people of Canada.

Taking the Census

One of the important pieces of work to be undertaken by the Federal Government this year is the census enumeration of the people of Canada, and the compiling of a vast amount of other information dealing with the status of our citizenship, and indicating the development of the Dominion within the past ten years.

The taking of the census is a big job, and an exceedingly important one. It requires elaborate and complete organization, careful publicity to acquaint people with what is expected of them when the enumerators call, and a small army of men to gather the information required, and another large group of experts to assemble and classify the information when it is received by the Department at Ottawa.

It is quite possible that some people look upon the taking of the census as a matter of comparatively small importance, and that, at this time especially, the large expenditure of money involved could be put to much better use. Such a view, however, is not only very superficial but quite erroneous. Taking the census is important in any country, but in no other country does it have quite so pronounced an effect as in Canada, and more especially in Western Canada.

In the first place, the representative of each Province of the Dominion in the House of Commons at Ottawa is based upon the census figures. The constitution of Canada stipulates that the basis of representation in the House of Commons shall be one member for each one-sixty-fifth of the population of Quebec. That is Quebec shall be represented by sixty-five members regardless of its population. Dividing the total population of Quebec by sixty-five gives the number of people represented by each member, and that same number of people in each of the other Provinces become entitled to a member. In other words, an absolutely fair basis of representation is thus arrived at.

Money grants to the Provinces from the Dominion treasury are also based upon population, but in the case of the Western Provinces a larger number of grants rest on this basis than is true of other Provinces. For example, grants to these Provinces in lieu of lands increase as population increases until the maximum is reached. Consequently it is important that an absolutely accurate census of our people be recorded, and especially so in the case of the West which is the most rapidly growing section of the Dominion. Increased western representation at Ottawa will likely have a profound effect upon national policies, while larger money grants will enable our provincial governments to meet the growing needs of these western communities.

The census is likewise a national stock-taking. It will reveal the extent of our growth and development as Provinces and as a Dominion within the past ten years. It will reveal to us evidences of national strength and disclose where weaknesses exist. For all these reasons it is important that every citizen fully co-operates with the enumerators and officials in making the census this year complete and accurate in every respect.

The census of 1931 will be the seventh decennial census of Canada since Confederation. It will be of interest to recall what the previous six "counting of noses" disclosed in the matter of Canada's population. Following Confederation in 1867, the first census was taken in 1871 and revealed a population of 3,485,761. By 1881 the population had grown to 3,842,810; in 1891 to 4,533,239; in 1901 to 5,371,315; in 1911 to 7,206,643, and in 1921 to 8,785,493.

It will be noted that between 1881 and 1891, and between 1891 and 1901, the population increased by only half a million in each ten year period, the increase between 1901 and 1911 was nearly two million, and between 1911 and 1921 a million and a half. That is, whereas Canada's population only increased by one million in the 20 years of the nineteenth century, it increased by three and one-half million in the first 20 years of the twentieth century.

The settlement of these Western Provinces accounted for much of this larger increase. In later years, however, there has not been the same phenomenal flow of immigration into the West, while on the other hand, the great productive and purchasing power of the West has contributed enormously to the industrial growth and prosperity of Eastern Canada. As a result, this year's census may not disclose the same ratio of increase in the West as compared with the East.

In view, however, of the important bearing which the census has upon both the economic life and the public administration of affairs of Canada it is, let it be repeated, the utmost importance that all citizens co-operate thoroughly with the army of officials entrusted with taking this census of our Dominion so that it may be a most efficient and reliable statistical record of the Dominion.

Propose Canadian Air Tour

Plan Suggested At Convention Of Clubs In Montreal

A national air tour that would extend from the Atlantic to the Pacific, and in which every aeroplane club would participate, was proposed at the convention of the Canadian Aeroplane Clubs' Association held in Montreal. The tour as outlined by its proponents would be as much as possible representative of the advancement made by Canada recently in the field of aviation. An armada of "planes going from airport to airport" would, it is thought, have its beneficial results from the point of view of the public.

Canadian Construction Figures

Construction In Canada During Year 1930 Was Well Above Average

The value of all construction contracts awarded during 1930 as compiled by MacLean Building Reports, Limited, amounted to \$456,999,000 as compared with \$375,651,900 in 1929, and while this is a decrease of 20.7 per cent, it is to be noted that the year 1929 was the most active year for building that Canada has ever had, being 22.1 per cent ahead of 1928. The totals for 1930 by provinces were: Ontario, \$175,459,000; Quebec, \$154,672,000; British Columbia, \$32,987,000; Saskatchewan, \$27,361,000; Alberta, \$25,081,000; Manitoba, \$22,010,000; New Brunswick, \$11,067,000; Nova Scotia, \$7,228,000 and Prince Edward Island, \$1,120,000.

First Rogue: "How did you manage to cheat your cousin out of his inheritance?"

Second Rogue: "I just set to work with a will."

American investments abroad now total more than \$7,000,000,000.

Cuba now has nearly 5,000 miles of federal highways.

Gems Revived After Centuries In Rock

Adapt Themselves To Airless Condition and Learned To Live

Without Breathing
Suspended animation in case of gems for as much as 1,000,000,000 years was demonstrated by Prof. Charles B. Lipman, of California University, before the American Association for the Advancement of Science.

Dr. Lipman said that proof of bacteria surviving for hundreds and even thousands of millions of years was found by him in pre-Cambrian rocks and in coal deposits.

These life germs, which normally require oxygen, adapted themselves to an airless condition and learned to live without breathing.

When rock and coal were crushed in sterilized mortars the powder was nourished in nutritive medium, of coal extract with one per cent. peptone, the spores began to live again after millions of years of inhibited life.

MIDDLE AGE

A Critical Time For All Women

"I am beginning to feel my age" is the confession many a woman has to make when she reaches the critical time of middle life. There is no doubt, however, to think you are too old to be well and happy.

Perhaps you have lost your grip on things; perhaps the old vigor and energy is lacking; you get tired easily, and your limbs ache terribly. Often your back seems ready to break and the pain is unbearable.

Your blood is at fault—it has become thin and impure and does not give the health-giving nourishment to the body. What you need is a treatment of Dr. Williams' Pink Pills. They will set you right. They actually make rich, red, health-giving blood and this good blood will drive out all your aches and pains.

Dr. Williams' Pink Pills will banish headaches, backaches, nervousness and lack of appetite, and in their place will come new energy and happiness. You can get these Pills at all medicine dealers or by mail at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Evolution Of The Windmill

New Use For Windmill Is In Connection With Airplane

Windmills, like many other things and people, have moved with the times. In their new guise, they may possibly not be so picturesque as their forefathers, but they are playing an important part in the industrial life.

Modern windmills pump water, also supply electric light for light-houses.

The most up-to-date use for the windmill is in connection with airplanes. The auto-giro, or windmill plane, is now so far advanced that Thomas Edison, the world-famous inventor, has expressed his firm belief that this invention will revolutionize world flying.

Miller's Worm Powders will eradicate the worm evil that bears so heavily on children and is believed to cause many fatalities. They are an acceptable medicine to children and can be fully relied upon to close the food channels thoroughly of these destructive parasites and restore the inflamed and painful surfaces to healthfulness. They are an excellent remedy for these evils.

Vast Sums In Life Insurance

One Hundred and Eleven Billion Dollars Of Life Insurance In Force

Since the close of the Great War life underwriters have brought into being a far larger estate than the combined national debts of the belligerent nations, Frank M. See of St. Louis, Mo., told the educational congress of the Life Underwriters Association of Canada, held at Ottawa.

He said there was one hundred and eleven billion dollars of life insurance in force, guaranteed by eighteen billion dollars as a reserve fund. This staggering total of assurance was held by seventy million people, one-fifth of whom were on the American continent.

Firewood for cooking is still used in more than half the farm homes of New Hampshire, judging from a recent survey.

Results Commendable.

Genuine Gratitude.

Miss Miller, of Crowdon, writes:—"In gratitude, I feel I must write and tell you what wonderful benefit I have derived from taking a bottle of your Carter's Little Liver Pills. Having been troubled with indigestion and sick headache for several months, a friend recommended me to try your famous pills, with the results that after the first dose I was made aware of their very real value, and felt I had at last discovered a remedy which performed what it claimed to do."

Take Carter's Little Liver Pills for the complexion and constipation. All druggists sell 25c and 75c per box.

Export Of Totem Poles

Investigation Is Ordered In Respect To Carload Shipment

Acting on representations from Premier S. F. Tolmie, of British Columbia, the Dominion Government ordered an investigation into the removal of a carload of totem poles shipped from Prince Rupert for a United States museum.

"We will not be allowed out of Canada pending the enquiry. The premier, on being informed of this shipment, telegraphed immediately to Prime Minister R. B. Bennett, protesting on the ground that the fast-acting art of the totem should be preserved as far as possible. Mr. Bennett telegraphed Dr. Tolmie reprimand, assuring him that the whole matter would be the subject of thorough investigation.

Recipes For This Week

(By Betty Barclay)

BRAN GINGER CAKE

1/2 cup shortening.
1/2 cup sugar.
1 egg.
1/2 cup all-bran.
1/2 cup flour.
1 teaspoon salt.
1 teaspoon soda.
1 teaspoon ginger.
2 teaspoons cinnamon.
1/2 cup sour milk.
1 cup molasses.
Cream shortening and sugar together. Add the egg; beat well. Add the bran mix and sift the dry ingredients and add them to the first mixture. Stir in the sour milk and molasses. Pour into greased pans and bake in a moderate oven (375 degrees Fahrenheit) from 30 to 40 minutes. Yield: 10 servings.

FRUITED WHIPPED CREAM

3 tablespoons confectioner's sugar.
1 egg.
1 cup cream, whipped.
8 marshmallows, finely cut.
1/2 cup dates, seeded and cut in small pieces.
1/2 cup nut meats, broken.
1/2 cup raisins, seeded and cut in small pieces.
Add sugar to cream. Fold in remaining ingredients.

No Asthma Remedy Like It. Dr. J. D. Kellogg's Asthma Remedy is distinctly different from other so-called remedies. Were this not so it would not have continued its record of relief until known from ocean to ocean for its wonderful value. Kellogg's, the foremost and best of asthma remedies, stands upon a reputation founded in the hearts of thousands who have known its benefit.

Ceded To China

Area Of 285 Square Miles Handed Back To China After Being 25 Years Under British Rule

The British Empire is 285 square miles smaller than it was several weeks ago.

Wei-hai-wei, which for thirty-two years has been under British rule, has just been handed back to China, and so, as its area was 285 square miles, the British Empire is now that much smaller.

The natives of Wei-hai-wei have so benefited under British rule that they were not at all anxious to be handed over to their native government, and indeed, asked that they might remain British.

Light Fiction

Novel reading can become a habit as harmful as tea-drinking and indulged in with as much mental benefit. It is too easy to be of value. No reading is of any cultural value unless it demands something from us. A book has to be at least a little difficult to be worth reading at all. —Everyman (London), England.

Homestead Regulations

Changes Made On Recommendation Of Minister Of The Interior

Regulations governing the conversion of patented pre-emption or purchased homesteads into soldier grants have been altered in an order-in-council noted in the Canada Gazette. Changes have been made on recommendation of Hon. T. G. Murphy, Minister of Interior, who found that several applicants are deterred from making such conversion on the ground that they had already obtained patent for their pre-emption or purchased homestead.

The new provisions are as follows: "1. Where patent for a pre-emption or purchased homestead has been issued, or where such patent has not yet been issued, if the holder of the pre-emption or purchased homestead is permitted to convert the same into a soldier entry grant, all sums paid on account of principal or interest in connection with the said pre-emption or purchased homestead may, upon application, be refunded to the holder of the land, or to the soldier settlement board in cases where an advance has been made under the provisions of the Soldier Settlement Act.

"2. The foregoing regulation shall have effect as if it were made retroactive to its application."

Wonderful For Indigestion!

When your stomach feels bad; when "sourness" causes pain; when you feel miserable—a single dose of pure Bismuth Compound will bring almost instant relief! For indigestion, the most effective use of BISMUTH Compound is really the only one. Bismuth Compound acts quickly and pleasantly. Pleasant and inexpensive to use. Ask your druggist.

Deaf Children Are Happy

Little Ones At Belleville School Do Not Feel Handicap

"No finer demonstration of the rapid advance which has been made in the care and treatment of deaf children can be found than at the Ontario School for the Deaf at Belleville," says the Ottawa Journal. "No sign of sadness, no sense of handicap or futility is to be found amongst these children, and despite the fact that 90 per cent of them cannot hear a single word, they carry on animated conversations, play games, sing and dance, just the same as other little ones who have no such handicap."

"Did you cancel all my engagements as I told you, Smithers?"

"Yes, sir, but Lady Millicent didn't take it very well. She said you were to marry her next Monday!"

Felt Tired Out All Day

Could Not Sleep at Night

Mrs. A. Aldmond Lalonde, 2481 St. James St., Montreal, Que., writes:—"After a spell of the grippe I was very nervous, and felt drowsy and tired out all day, and could not sleep at night. I was also troubled with my heart and did not feel at all like working. I was told about Milburn's Heart and Nerve Pills and after taking four boxes I was completely relieved of my trouble, and can recommend your Pills to everyone."

COMBINES ACT HELD VALID BY PRIVY COUNCIL

London, England.—The Combines Act of the Dominion of Canada is valid, according to the judgment handed down by the judicial committee of the Privy Council, dismissing an appeal from the Proprietary Articles Trade Association of Canada.

Thus the privy council backed the unanimous opinion of the Dominion's Supreme Court, climaxed a four-years' legal battle and opened the way to several investigations of combines.

The case was argued before the privy council last June. The act was passed by the Federal parliament in 1923 to replace the 1919 act, which had been declared invalid by the privy council.

The provincial governments of Quebec and Ontario both supported the contention of the Proprietary Articles Trade Association that the Federal act was invalid.

The P.A.T.A. also contested the validity of the sections 468 of the Criminal Code of Canada, and in dismissing the appeal their lordships upheld the validity of this section.

The judgment said that in their lordships' opinion sections 468 of the Criminal Code and the greater part of the Combines Investigation Act fall within the power of the Dominion government to legislate as to matters falling within the class of subjects in the criminal law, "including the procedure in criminal matters."

The substance of the act, the judgment continued, is to define and to make criminal, combines which the legislature, in the public interest, intends to prohibit. The definition is wide and may cover activities which have not hitherto been considered criminal.

"But only those combines are affected which have operated or are likely to operate to the detriment or against the interest of the public," and it parliament genuinely determines that commercial activities, which can be so described, are to be suppressed in the public interest, then their lordships see no reason why parliament should not make them crimes.

The criminal law, the judgment went on, is certainly not confined to what was criminal by the law of England or of any province in 1867, when Confederation came into being. The power must extend to legislation to make definitions of new crimes.

It is not enough, however, for parliament to rely solely on its powers to legislate as to criminal law, the judgment added. The remedies given under sections 29 and 30, reducing the customs duty and revoking the patents, have no necessary connection with criminal law.

Their lordships have no doubt that they can both be supported as being reasonably necessary to the powers given respectively under section 91. The judgment declared that in a country where a general protective tariff exists, persons may be found to take advantage of the protection, and within its walls form combinations that may work to the public disadvantage.

It is an elementary point of self-protection, that a legislature which creates a protection should arm the executive with powers for relaxing the protection if it is abused, the judgment declared.

The same reasoning applies to grants of monopolies under any system of patents. The view their lordships have expressed makes it unnecessary to discuss the further ground upon which the legislation has been supported by the reference to the power to legislate under section 91 "for the regulation of trade and commerce," the judgment continued.

Manitoba Seed Fair

Will Be Held In Conjunction With Winter Fair On March 16

Brandon, Man.—Judging by early inquiries, the provincial seed fair to be held in conjunction with the Manitoba Winter Fair, March 16 to 20, will be larger than ever. Now in its seventh year, the seed fair has grown by leaps and bounds and it cramped the generous show space in the Arena building last year. As the fair is an opportunity for growers of all grain, grass or clover seeds to get in touch with prospective purchasers, the exhibition is expected to have more than its usual interest in March.

Claim Commander Was Drunk

Crew Of Canadian Vessel Testify Against United States Officer

New York.—Seamen from the Nova Scotia power boat "Josephine K" appeared before the consular board of inquiry to testify that Boatwain Karl Schmidt of the "CG-145" was drunk when he boarded the Canadian vessel after its capture near Ambrose Light. Schmidt, who had admitted he fired the shots, one of which fatally injured the boat's master, William Chert Lusenborg, N.S., was in court and heard witnesses swear that after the capture he continued drinking in the forecastle of the run-runner.

Louis Belg, who described himself as an able seaman from Halifax, N.S., gave the main testimony for members of the crew. Schmidt, he said, seemed "good and drunk" when he saw him shortly after the "Josephine K" was boarded. The boatwain had pointed a gun at Allan Falkenberg, Lusenborg, and maintained he would have to shoot because Falkenberg's name did not appear on the ship's crew list. Schmidt, he said, staggered, his face was red and his eyes "glaring." The commander of the "CG-145" stayed in the forecastle several hours, and while there consumed six bottles of ale and two drinks of rye whiskey, during which time all members of the "Josephine K" crew had an opportunity to witness his conduct.

Seaman Allan Falkenberg said he thought Schmidt drunk; that he waved a gun and told him he would shoot him if he did not belong to the ship. Harry Jewell said: "He was falling all over himself, and rolling around."

Need For Early Session

Rt. Hon. Mackenzie King Issues a Statement

Ottawa, Ont.—With the declaration that in some parts of Canada today the distress is greater than it has ever been, Rt. Hon. Mackenzie King, leader of the Opposition, has issued a statement calling upon the prime minister to shed some light on when parliament will meet. Notwithstanding that the government has had a free hand with its policies and expenditures, "conditions in Canada today are much worse than they were at the time of the calling of the special session in September last," asserted Mr. King.

"There is, at present, much more need for the regular annual session of parliament to consider the conditions of the country's affairs than there was for any special session in September," added the Opposition leader.

Mr. King remarks that "the pretext that the reassembling of parliament should wait until the arrival in Canada of the new Government-General cannot be taken seriously." He comments on the fact that Premier R. B. Bennett is going to Washington, and expresses the hope that "before a prime minister embarks upon further missions which take him away from Canada he will at least let the country know when it may expect the reassembling of its parliament."

Asking Lower Freight Rates

B.C. Government Will Back Growers and Cannerymen in Fight

Victoria, B.C.—The government will get behind British Columbia growers and cannerymen in their fight for lower freight rates to the prairies. Premier S. F. Tolmie has instructed Leon J. Lander, K.C., government counsel, to co-operate with the growers and cannerymen in commencing proceedings before the railway commission immediately.

Vegetable growers of British Columbia, backed by the cannery industry, appealed to the government in strong terms recently to rescue them from a threatened reduction in growing acreage, by about 50 per cent. this year, by an immediate reduction in freight rates from here to prairie markets.

To this end a large delegation urged the cabinet to appoint counsel, and file an immediate application with the railway commission for a cut in western rates to the level of those prevailing from Ontario to the prairies.

It was expected the government would follow this plan and launch a new rate fight without delay.

Increase In Govt. Employees

Regina, Sask.—An increase of 351 in the number of employees in the various departments of the government over the number employed on Sept. 9, 1929, is shown in a return to the order of the assembly. This return includes the employees of the liquor board, the farm loans board and the power commission.

MAJORITY FOR LABOR ON TRADES DISPUTES BILL

London, England.—In a packed and excited House of Commons, the government got through the second reading of the Trades Disputes Bill by a majority of 27.

The government majority was larger even than had been expected. Only seven other Liberals voted with Sir John Simon in opposition to the bill and with the Conservative opposition. One Liberal supported the bill by his vote; the rest abstained from recording their opinion.

As soon as the result of this vote was announced, Rt. Hon. Stanley Baldwin, Conservative chief, moved that the bill be referred to a committee of the whole House.

Again the House divided. This time, however, the majority of the Liberals voted with the government, and the MacDonald majority rose to 62. The net result is—in the parlance of Westminster—that the bill will go "upstairs" for committee consideration clause by clause. The committee stage will be passed in a standing committee instead of the committee of the whole where the possibility of a government defeat on a matter of detail is always present.

The final day's debate on the bill opened in breezy style on Rt. Hon. Winston Churchill on his feet. It ambed along with the contributions of back-benchers during the dinner period and ended amply with Rt. Hon. J. H. Thomas, the secretary of state for the Dominions.

Mr. Churchill described the trades unions as pampered pets heaped with privileges under the new bill. The Laborites continually interrupted Mr. Churchill with ironical cheers.

"Why," Mr. Churchill asked, in reference to Leves, "why should a patriotic Conservative trades unionist have to subscribe to the political fund of the cosmopolitan Socialists? Why should a Catholic have to subscribe to a fund, perhaps, of an Agnostic or an Atheist?"

These words brought a Labor storm.

"Filthy argument," one Laborite shouted.

Mr. Churchill spoke of the Labor decision not to vote as an outrage of the first order.

"What," Mr. Churchill asked, "has become of the Liberal tradition?" Here a Laborite interrupted, pointing at Mr. Churchill, said: "He's not a tradition; he's an extradiation," and a roar of laughter went up from the House.

The Liberals had compromised on the bill, Mr. Churchill added, they might not dislike it much in the House of Commons, but they were going to hate it like poison "upstairs." Mr. Churchill finished by comparing Prime Minister MacDonald with the "boneless wonder" of a circus.

A new law makes compulsory the establishment of a public library in every municipality of Czechoslovakia.

Winning Alberta Communities in C.N.R. Progress Contests

Announcement of the first year's results in the Canadian National Railway community progress competitions for European settlements in Alberta, showed Norma Ukrainian community near Vegreville to be first, Lloyd-George Scandinavian community near Camrose second, The Pines Ukrainian settlement at Mundare third, Liberty Municipality near Leduc fourth, and Unity Municipality near Railway fifth. Pictures show left to right, farm home of J. Federuk near Vegreville, Brooks school near Vegreville, farm home of Frank Mohler in Lloyd-George district, farm home of S. W. Shenkel in Liberty, the community hall in the Ukrainian settlement at Mundare, and the Clifford school in Unity Municipality.

PROMINENT CANADIAN BANKER

Sir John Aird, president of Canadian Bank of Commerce, which held a general meeting of executives in magnificent new building at Toronto, the highest in the British Empire, which will now be open to public prior to official opening ceremony.

Precedence Given To High Commissioners

King Gives Order As To Rank On Ceremonial Occasions

London, England.—Office of the secretary of state for the Dominions announces that His Majesty has directed that the high commissioners of the Dominions in London and also the high commissioner for India will rank immediately after the British secretaries of state on all ceremonial occasions other than those when ministers of the crown are present from the Dominions.

This announcement implements the decision reached at the Imperial Conference regarding the precedence to be accorded to the high commissioners.

Position of the Dominion's representative, in relation to a minister of the crown visiting, the United Kingdom from the Dominion, remain unaltered, the minister being given precedence immediately before the high commissioner concerned.

Heads Canadian Flying Club

Manager Of Royal Bank At Port William Elected President

Montreal, Que.—H. R. Richards, manager of the Royal Bank of Canada in Port William, Ont., was elected president of the Canadian Flying Club Association at the close of the annual convention here. He succeeds J. A. Sully, of Winnipeg. Other officers were elected as follows: Vice-president for the Maritime provinces, R. J. R. Nelson, manager of the Halifax Shipyards, Halifax, N.S.; vice-president representing Ontario and Quebec, A. Sidney Dawes, Montreal; vice-president, representing the western provinces, James A. Bell, president of the Edmonton Flying Club, Edmonton, Alta.; treasurer, H. P. Crab, Winnipeg, president of the Winnipeg Flying Club.

All meetings of the association were held in camera and no public announcements were made at the close, beyond the list of officers.

Passengers Ordered Deported

Britishers On C.P.R. Ship Barred From Landing In Canada

Vancouver, B.C.—Two passengers of the liner "Empress of Russia," which arrived here from the Orient, Captain W. Little and L. Mercer, have been ordered deported by an immigration board of inquiry. Appeals have been lodged in Ottawa against the rulings.

Captain Little was just discharged from the Indian army and was on his way to join relatives in Toronto. Mercer, from Shanghai, an engineer on the steamer "Hedwig," which was wrecked a few months ago off China, said he intended to settle in Canada.

The deportations were ordered under the government regulation which bars all but practical farmers and wives of bona-fide Canadian residents from entering the country.

Mining Men To Meet

Delegates From All Parts Of Canada and U.S. To Attend

Ottawa, Ont.—Delegates from all parts of Canada and some from United States are expected to attend the annual meeting of the Canadian Institute of Mining and Metallurgy from March 4 to 6. Papers on the latest developments in Canada's mining industry will be delivered and many social functions have been arranged.

G. G. Duncan will present a paper on exploration work in the north-west territories, particularly around the Copper River; J. F. Pone will refer to developments around Great Bear Lake and John Dryburgh will speak on the nickeliferous ores of the west coast of Hudson Bay.

TEST SHIPMENTS OF GRAIN FROM PORT CHURCHILL

Ottawa, Ont.—Test movement of two or possibly three cargoes of grain, about 750,000 bushels, will be shipped through the port of Churchill the middle of next September, according to present plans. A conference held here with representatives of shipping interests indicated that there will be no difficulty getting private steamship companies to undertake the movement. A statement issued on the conference by the Department of Railways and Canals, follows:

"Arrangements for the proposed test movement of grain from the port of Churchill, on Hudson Bay, were under consideration at a conference held in the office of the minister of railways and canals. The meeting was arranged at the instance of the minister, Hon. Dr. R. J. Manion, who is taking a warm personal interest in the whole undertaking, and was attended by the principal officers of his department and by representatives of Canadian Government Merchant Marine, and Canadian National Steamships.

Dr. Manion was assured by his officers that from present indications the port facilities would be sufficiently advanced to admit of the test movement by about the middle of September, the date by which the contractors of the elevators have agreed to have them complete. The movement will dislocate to a certain extent the dredging and dock extension program for the present season, and for that reason will probably be restricted to the shipment of two or possibly three, cargoes of grain approximating about three-quarters of a million bushels.

"The shipping trade is greatly depressed at present, and from inquiries already received, vessel owners are evincing considerable interest in the possibilities of the Hudson Bay route. No great difficulty, therefore, is anticipated in interesting private vessel owners to the business that the test movement will afford and considerable prestige may be expected to accrue to the steamship company having the honor of handling this first commercial movement of grain out of Western Canada's new port.

"It is too early as yet to speak definitely as to either freight or insurance rates, but arrangements are being made to see that that aspect of the situation is thoroughly canvassed, and at the proper time the minister expects to be in a position to meet any eventually which may develop. Meanwhile, both he and the officials of the department feel that there is no question but that it will be possible to demonstrate, this coming fall, that the facilities of the port will be available and capable of taking care of the business which will be attracted to the port on the inauguration of the route at the opening of the 1932 season of navigation."

SAYS CANADIAN WHEAT IS BEST IN THE WORLD

Toronto, Ont.—"Now is the time for the governments to stock up with better seed wheat for this year's crop, wheat that will fight rust or anything but drought," said Herman Treile, of Peace River, Alberta, world's wheat king, in an interview here. He addressed the Kivnans Club on his way to Ottawa to consult with officials of the Department of Agriculture.

Mr. Treile confessed that he is interested in seed wheat, in supplying to the Canadian farmer the best possible wheat and oats, rather than in the economics of the agriculture problem. "The trouble with Canadian wheat is there are too many varieties," he remarked. "This country can and does produce the best wheat for mixing that the world requires for flour. I'm not interested in bulk wheat—that will come in the Peace River as it has in other parts of the west. My job is to produce better and better seed."

Canadian wheat is the best in the world," Mr. Treile went on. "The world needs the best. Get Canada's quality wheat advertised enough and we don't need to worry about getting rid of our product—without feeding No. 1 Hard to the hogs, which at present relates price of wheat and pork is a better gramme than selling it at less than 80 cents a bushel."

Russia could not produce as good super-hard wheat as Canada, Treile said, "they have climate and soil, but not the organization," he explained. "They are using our brains and our experience."

Ottawa, Ont.—Prestige of Canadian grain on world markets must be regained before the troubles of the western farmer can be cured, said Herman Treile, of Wembley, Alberta, world's wheat king.

Mr. Treile, who with Mrs. Treile is leaving in a few days on a trip overseas, called on J. H. Grisdale, deputy minister of agriculture, and emphasized the necessity of concentrating on Marquis and earlier types of wheat.

"The difficulty of the west," Mr. Treile said in an interview, "is that the farmer has been trying to commodate the combine harvester to the west instead of growing a type of wheat suited to the combine."

"Farmers have been using the combine to harvest late maturing wheat which is not dry when threshed and the effect has been to destroy the prestige of our grain."

As to this year's crop, Mr. Treile said: "The farmer will take what he can get for it and then start all over again."

Mob Lynchers Slayer

North Dakota Is Scene Of Lawless Tragedy

Schafer, N.D.—Reverting to the days before law and order came to the state, a mob of lawless men way into the county jail here and lynched a 22-year-old farmer, who had confessed slaying a family of six.

When the crowd dispersed, as swiftly and as silently as it had formed the body of Charles Bannon, youthful slayer of the A. B. Haven family, was left hanging from a bridge over Cherry Creek, about a quarter of a mile from town. His neck was broken.

Apparently the mob came from nearby farms that once were a part of the great cattle country about 60 miles north of Medora. None of the mob was recognized.

It was the 12th lynching in the history of the state, eight white men, three Indians and a negro, having fallen victims to mobs previously. The last such affair occurred 17 years ago, when Steve Culbertson, a triple slayer, was taken from jail at Williston and his body left suspended from a nearby railroad bridge.

Young Bannon died pleading that his father, James F. Bannon, also held for the killings, be not harmed. The youth, in his confession, had declared that he alone was responsible for the Haven family's massacre, which, he said, occurred after a quarrel last February.

Russian Trade Delegations

London, England.—Rt. Hon. Arthur Henderson, secretary of foreign affairs, informed a mob gathered in House of Commons that he was not aware of any negotiations looking to the establishment of Russian trade delegations in any of the Dominions.

The central highway in Cuba is to be completed in February.

PROHIBITION

S. K. Eatchie in the Contemporary Review (London): "The example of Canada, with its system of public monopoly and government distilleries, is said to be having an influence in the United States, and opinion is believed by some to be growing in favour of state control and the restricted sale of liquor." This may be so; but it would certainly be an amazing development if the American people were turning towards such a solution of the drink problem, for the one thing certain in the past has been that they could not be induced to look at any scheme which would involve the government's touching and handling the unclean stuff.

"The above item in its sum up of the situation does not give the writer's opinion as to how the bootleg liquor traffic, so freely indulged in and upheld by thousands in America, is to be handled. It is a widely known fact that where people are debauched from getting the rum, going in by rum-runners, they are manufacturing a kind of drink called bootleg beer; and often where rum is procurable, when only the rich can buy or pay the cost of illegal importation, a large number are brewing their own kind of drink. We understand that it is the minds of the Americans are turning to a sort of control of distilleries to endeavor to remedy matters, where prohibition is proving a failure despite its strict enforcement by the authorities.

Newfoundland had her day of moonshiners under the prohibition regime, and many were being poisoned by the illegal if you like, manufacture of such drink, and only when the government instituted control did this evil subside. Since government control of distilleries was, where a hotly a day was the allowance, there was less evil, and now that the present government limits the sale to three bottles a week it cannot be said that the only aim is to derive a revenue, but to make people, who think they must have liquor, more temperate, and a desire on the part of the board to sell light wines and beer—which is not intoxicating—and it is outgrowing the use of the hard stuff to a great degree as shown in the last report of the Board of Control at St. John's-Twillingate Sun, Newfoundland.

MAY INTERRUPT BERMUDA'S TRANQUILITY

Only a lone motor ambulance, used in cases of extreme emergency, can now spoil the world-known tranquility of Bermuda Island, but additional "noisy motor contraptions" may soon be allowed, on occasion, to interrupt the serenity of the colony. No motor engines have been allowed on the island for many years, but recently a bill was introduced in the House of Assembly to grant physicians the right to use automobiles. It was pointed out that often the hurried presence of a doctor at the sick bed was more important to the saving of life than the patient's quick transport to the hospital. More and more the motor car is establishing for itself an indispensable place in our lives, even in quiet, restful Bermuda.

The Hudson Bay Company has decided to close their branch store at Lethbridge shortly.

The federal government has started construction of a building at Drumheller to house government affairs, including the post office.

SAUNDERS MINERS OPPOSE EXPORT OF ALBERTA OIL

Below is a resolution drafted by Mr. G. Evans and endorsed by the Saunders Local Union, and is to the point. At present there are thousands of miners who do not know how soon the boarding house is going to close down on them; our own boarding house is allowing the men to live a day—breakfast at ten and supper at five. The proprietor has gone in the hole to the extent of a hundred dollars. The fact that we were so anxious to see go through from Rocky Mt. House to Nordberg, which would be an asset to the country and would be the means of providing employment for a bunch of men during the coming summer, is a lead letter. Turner Valley is rushing gas into coal-burning districts which, if allowed to get there, will throw countless more miners out of work.

"To the Alberta Government:—Protesting against export of gas from Alberta: That, owing to the deplorable conditions prevailing in the mining camps of the province through the mines not operating owing to lack of orders, whereby thousands of men employed in this class of work are unable to earn even the bare necessities of life and the children of said men are unable to get the education which they should be better fit them for other vocations, we, the citizens of Saunders, are of the opinion that the export of gas out of the province at this time would aggravate because to the extent that a number of the domestic coal mines now in operation would have to close down indefinitely, whereby thousands more miners would be thrown out of employment. Therefore, we trust that the Provincial Parliament at this time cannot see their way clear to grant a franchise for this purpose, until such time that economic conditions are more favorable for the men affected to seek other classes of work."

There is a saying that you have to give people what they want. All right, but before doing this you must also find out if this is going to do good for the greatest majority. We do know that gas is cleaner and cheaper than coal, but, again, this country has been flooded with immigrants, mostly for construction work. When construction finished, they worked themselves into the mines, for to live they must work. Now then, give those people gas and you throw hundreds on to the market again, and they find the market full; no buyers of the power labor. Now, we come to another very technical point which is very hard to understand unless you are a deep thinker, but it is true. Our government must live up to that; they prove to the Canadians, the people who put them there, that they are right and have also the right to tell Turner Valley to hold off with their gas until a more opportune time; if they do not, then Turner Valley will take the gas through and prove that they have the "might is right." Now, let them sit up, face the menace which is in Canada, because it is there, a slow-moving, insidious creeping thing that brings in its wake death, suffering and disease—for what? The right to eat, to live—Red Deer Advocate.

At that, it takes a full cold-blooded criminal to shoot down a "suspected" run-runner on the high seas.

W. Park Evans, veteran editor and proprietor of the Gleichen Call, died last week of pneumonia.

The courts have ruled that a college can compel its students to get vaccinated. We would wish that the same rule would compel them to become educated.

Announcements of deaths and marriages got all mixed up in a Nova Scotia paper last week. But it didn't matter much, for beautiful bouquets of flowers were present in all cases.

A Governor General Departs

Full military honors were accorded Viscount Willingdon, on the occasion of his sailing from Saint John, N.B., in the Canadian Pacific liner "Montclare," on relinquishing his post as Governor General of Canada to assume that of Viceroy of India. The pictures show the vice-regal party on board ship, including Their Excellencies Viscount and Lady Willingdon; Captain G. Fitzgibbon McCombie, of the "Montclare"; Colonel Humphrey Snow, Comptroller of the Household; and Lieutenant D. H. Fuller, A.D.C.; the inspection of the guard of honor, with Captain Streetfield, A.D.C., in the foreground; he had a special berth on the ship; taking the salute in front of the Admiralty Hotel, and one of the gun-crews of the saluting battery on Partridge Island, which fired 19 guns as the liner passed, bearing Their Excellencies to England.

Services for February 8th, St. George's Sunday:
10 a.m.—Sunday school in the parish hall.
7 p.m.—Evensong.

LARGE ORDER FOR STEEL RAIL PLACED

Orders have been placed with the Dominion Steel and Coal Corporation of Sydney, N.S., for 34,000 tons of 130-pound steel rail for use of the main lines of the Canadian National Railways between Montreal and Chicago, it was announced recently by R. C. Vaughan, vice-president in charge of purchases and stores for the national system. This rail, the heaviest ever to be used on Canadian railways, is now being rolled and steps have been taken to standardize both the rail and the rail fastenings which will be used with it. The order now placed will provide for the laying of approximately 170 miles of main-line rail in Canada.

Nine lives were lost when an airplane crashed to the earth near Plymouth, England, on Tuesday.

Manners do change. In 1900 it was: "Shall we join the ladies?" Now it is: "Where the hell's my wife?"

The High River Times remarks: "It is doubtful after all if Harry Scott will be knighted this winter. The Imperials say not."

Don't forget the "Evensong" to be staged at the arena on Tuesday night next, under auspices of the Blairmore Cricket Club. See bills for particulars.

Here and There

(1517)

One of the biggest game rages yet to be taken out of the Canadian Rockies has fallen to the gun of Angus Hodgson, of Montreal, who has been hunting in the Kootenay Valley. It includes two deer, two Rocky Mountain goats one moose, one elk, and one black bear. At the end of his trip he spent six days tracking a monster grizzly and with one higher gun he would have had the limit of every animal possible to get which the law allows him.

Comprising the largest one-day movement of apples out of British Columbia this season, the Canadian Pacific Railway recently operated four special freight trains over its 113 carloads of McIntosh Reds to the Prairie Provinces and as far east as Kenora.

Riding moose across New Brunswick lakes and rivers is beginning to take on the coming new craze, says Major McGehee, noted New York sport and magazine writer, who has been spending a Fall outing in the Miramichi and Calais River districts. Up to the present the moose riders have been cow moose but Rev. Thomas Travis, of Montclair, N.J., appears to be the first who has ridden a bull moose, which was done in the Key Hole of Grand Lake, about 35 miles from Fredericton. Now other sportsmen are taking up the pastime until it begins to look as though sportsmen in New Brunswick will be getting the habit of crossing lakes and rivers on mooseback.

Officials of the World's Grain Exhibition and Conference to be held at Regina July 25 to August 4, 1932, report that farmers in the States of Missouri and Kansas are keenly interested. Entries of both oats and corn from these states are to be expected at the Exhibition. Over \$200,000 is to be offered in cash prizes and income classes as many as fifty prizes will be awarded. First prize for wheat will be \$2,500 and first prize for corn, \$1,500.

Flag poles are found at their best and highest in British Columbia. Recently one was sent via the Panama Canal all the way by water to the Toronto National Exhibition. It was 177 feet high, 31 inches in diameter at the base and 9 1/2 inches at the top. This young giant was 236 years old. The daddy of them all is at the famous Kew Gardens, London, England, and is 241 feet high.

This year's crop of grapes in the Niagara fruit peninsula between Hamilton and Niagara Falls, Ont., is expected to reach about 65,000,000 pounds, an increase of 15 per cent over the 1929 crop.

Motor tourist travel from the United States to New Brunswick has been 50 per cent greater this year than in 1929, according to statistics covering the season up to August 31, compiled by the provincial government from official returns gathered at the 25 ports of entry along the international boundary. The number was 385,531. Normal increase each year has been 25 per cent, and the difference this year is attributed to wider advertising by the provincial government.

"Hello Willie," exclaimed the kind old travelling man, "how is your dear grandpa standing the heat?"

"Ain't heard, yet," said Willie. "He's only been dead a week."

J.S. HIGHLIGHTS OF PROHIBITION MAKE REPORT

Washington, Jan. 20.—Congress learned today that six of the eleven law enforcement commissioners recommend a departure from national prohibition as it stands. The commissioner's majority report opposed outright the repeal of the dry amendment. Four urged revision of the constitutional clause, the remaining seven favored further trial and strict enforcement. The commission opposed the return of the saloons, or federal or state governments going into the liquor business. They agreed that if the Eighteenth Amendment is revised, the form should be to empower congress to regulate the liquor traffic as it sees fit. Under an amendment suggested to that end, a plan was advanced for federal-controlled privately owned mercantile liquor establishments. The commission opposed Volstead modification to allow light wines and beer, and advocated the removal of limitations of how much liquor doctors can prescribe.

DEATH COMES TO MRS. SERVEY

Mrs. Alma Servey, a resident of Bremerton for 31 years, and during all of that time, with the exception of the past year, one of the most active in civic, social and fraternal life, died this morning after a long illness. She was 57 years old, a native of Kansas.

Mrs. Servey was the widow of G. L. Servey, for many years active among navy yard mechanics, and whose death occurred here 13 years ago. She was an outstanding character with public work on behalf of charity and those things for betterments that attracted her attention. The dead woman was past mistress of Reliance Chapter, Order of Eastern Star, and past guardian of Women of Woodcraft, in which fraternalities she was an indefatigable worker.

Surviving are a son, Mark Servey, of Seattle; a brother, Carl Stewart Chapman, of Bremerton, and a sister in California. Funeral services were held from the Lewis chapel, Thursday, at 2 p.m., under auspices of the Eastern Star and Women of Woodcraft, to be followed by cremation in Seattle—Bremerton, Wash., Searchlight.

The Log's Story

Captain and mate wrote the ship's log alternately and, the mate being drunk, the captain faithfully recorded: "The mate is drunk today."

On the following day the mate, seeing what had been entered concerning himself, faithfully recorded: "The captain is sober today."

Here and There

(605)

"We are quite satisfied with the showing of the British teams at the Empire Games just concluded at Hamilton, Ont., for we picked up quite a lot of honors, and if I may say so, made a very creditable showing," was the statement of H. T. Britten, in charge of the swimmers, who hung up several new marks at the meeting. He thought the games would be of incalculable value to the Empire as a whole, since they brought all parts of it together at one time and one place.

The maiden voyage of the new Canadian Pacific flagship of the Pacific, the Empress of Japan, from Yokohama to Victoria, was completed in eight days, six hours and 24 minutes, beating the Empress of Canada record for the run, established in 1918, by four hours and thirty minutes. E. W. Beatty, chairman and president of the railway company, wired congratulations to Captain E. Allan, general superintendent of the Company's Pacific steamship fleet. Records also fell on the Atlantic when the company's liner Duchess of York travelled between Greenock, Scotland and Quebec City in 5 days, 17 hours and 20 minutes, even bettering the time hung up by the Duchess of Richmond on her previous trip from Belfast to Quebec, which is a hundred miles shorter.

Speaking at a banquet given by the Saint John Board of Trade to inaugurate the service of the new Canadian Pacific steamer Princess Helene, on the Saint John-Newly route, E. W. Beatty, chairman and president of the railway company, thought Canada would respond more quickly than other countries, even wealthier than herself, to measures taken by realizable government and large industrial organizations to alleviate unemployment. He added that in his opinion the Maritime Provinces were particularly favorably placed in this respect.

Dressed in white and blue kilts and the traditional Normandy caps, fifty Louisiana girls, descendants of the Acadians expelled from Nova Scotia 175 years ago, assisted in the celebrations at Grand Pre recently, at which many Acadians living in the United States and Canada attended. The United States, France, Great Britain and Canada were represented at the celebrations which were held on the site of the old village and around a monument to the Acadians made famous by Longfellow's poem of Evangeline.

In the provision of telephone communications in cities of 50,000 and over, Canada leads the world, according to statistics recently published by the Department of Communications. Canada has 24.2 telephones per 100 inhabitants against the United States 21.8. In 1928 Canada had 10.5 telephones per head of population as compared with 23.7 in the United States, her nearest rival.

A total of 18,029,973 telegrams was transmitted in 1929, an increase of 1,172,758 over 1928. There are 359,851 miles of telegraph lines in Canada.

A novel form of entertainment is being offered at North Sydney, N.S., where passengers are being taken out on local sword-fishing crafts for which a small fee is charged. Many are availing themselves of this opportunity of seeing the huge fish hauled from the deck of a boat. An instructor explains the conversation in catching these monsters of the deep.

Runners from all parts of Canada will again compete in the International Livestock, Grain and Hay Show to be held at Chicago, Nov. 15 to 20. The show is a competitive class for hard young men, the winner of which is acclaimed as the world's champion. Canada has won 16 times in the past 19 years and the province of Saskatchewan won the crown on 11 occasions.

Capt. Eddie Collins, Mickey Cochrane and Cy Perkins of the world's champion Philadelphia Athletics, and Tris Speaker, world's champion player of former years, have been spending the first half of November in the New Brunswick woods, shooting deer, moose and bear, and also adding wild geese and quail to their bag by a visit to the Barbours on the Gulf of St. Lawrence coast, where the Canada's starting point for their hunting trips.

The championship of the 11th Canadian egg laying contest, just concluded at the Central Experimental Farm at Ottawa, goes to a pair of white leghorns entered by Richard Green of Farnham, Kent, England, while second place honors went to Mrs. W. J. Thompson of Alton, Illa. Said with a pair of barred Plymouth rocks. Third place was taken by a pair of Game of the Island of the University of the Columbia. A new record was made in the contest was a Rhode Island Red, "No. 316," entered by Dan Russell of New Westminster, B.C., made a score of 27.8 per cent for 249 eggs. The contest lasted as usual, six weeks.

Six international army of veterans will converge at the Royal Winter Fair Horse Show to be held at Toronto, November 19 to 21, 1930, will come from the United States, the Irish, Free State, Hungary, Sweden, Germany and Korea and will be a kind of a reunion of the old army men who will enter the race in the revived International Grand Prix. The contest will be a kind of a reunion of the old army men who will enter the race in the revived International Grand Prix.

Here and There

(686)

Canada looms more important
than ever in the trans-Pacific car-
rying trade, since the Empress of
Japan sailed from Vancouver re-
cently with a total of 938 passen-
gers for Honolulu and the Far
East, setting a record for the Cana-
dian Pacific white Empresses for
the year and amply justifying the
company's expenditure of \$5,000,000
in a ship which is the largest and
fastest on the Pacific.

Emergency work in the west on
Canadian Pacific Railway con-
struction this fall and winter rep-
resents expenditure of more than
half a million dollars in allevia-
tion of unemployment. The work
is being undertaken in the prov-
inces of Saskatchewan and Al-
berta. Similar relief in the East
is seen in the fact that 550 former
employees are now being taken on
at the Angus Shops, Montreal,
where they will work as repairs
to passenger cars.

Bound on her 30,000-mile annual
Canadian Pacific cruise around the
world which will last four and a
half months, the S.S. Empress of
Australia sailed on the first lap of
her voyage from New York Decem-
ber 2. She will touch at 81 ports
and places in 24 countries during
the trip and will be at sea 75 days
and in port 53 days. She sailed
with a capacity passenger list.

Patrons of the Royal York Hotel,
Toronto, will enjoy the finest beef
at the coming Christmas and New
Year festivities possible to procure
as a result of the purchase by the
hotel management of 60 prize ani-
mals at the Royal Winter Fair
held at Toronto recently.

A tablet has been erected at
Windsor, N. B., by the Canadian
Government commemorating the
founding of King's College in 1789,
the first university in Canada and
the oldest in the British overseas
dominions.

HILLCREST HAPPENINGS

Members of Bellecrest Chapter, O.
E.S., entertained their friends on Fri-
day night in the Masonic hall. The
early part of the evening was spent
in playing whist, the following being
successful prize winners: ladies' first,
Mrs. G. Coupland; second, Mrs. E.
Rolle; third, Mrs. J. Jackson; gents'
first, Mr. C. Emmerson; second, Mr.
T. Davies; third, Mr. M. B. Walker.
After supper, at which several witty
speeches were made, dancing was in-
cluded in for a couple of hours.

Our old friend, Joe Jasbee, who is
attending Edmonton normal school,
has been appointed convenor of the
music department.

Following a week of soft weather,
the skating rink is now open again.

Mr. and Mrs. H. Waterhouse have
gone to reside in Calgary, where Mr.
Waterhouse has received a govern-
ment appointment.

Mrs. J. Makin left on Sunday night
for Edmonton, to attend the funeral
of her nephew.

COWLEY HAPPENINGS

Mrs. P. Burles is spending a holiday
in Lethbridge.

On Friday night last a social even-
ing was staged at the home of Mr.
and Mrs. Duart Smith at Lundbreck,
when their house was packed to
standing. The time, which sped only
too swiftly, was spent at dancing and
cards. Good music was provided by
local talent. The proceeds, which
netted a neat sum, were added to the
North Fork Anglican church fund.

Dave Bouthiller has returned from
the sanatorium, feeling much im-
proved in health.

The Ladies' Bridge Club was enter-
tained at the home of Mr. and Mrs.
Harold Cleland on Monday night,
while the Men's Bridge Club was
entertained the same night at the
home of Mr. and Mrs. M. A. Murphy.

THREE WOMEN TO

RACE AT THE PAS

The entries of three women in the
gruelling 200-mile dog race, which
will be staged at The Pas, Manitoba,
during the week of March 2 to 7,
have added new color to this great
northern classic. Thula Geelan,
woman musher from McCall, Idaho;
Mrs. F. P. Ricker, Poland Springs,
Maine, and Ida Carriere, York Fac-
tory, in northern Manitoba, are the
women mushers who will battle over
the hazardous trail from The Pas to
Flin Flon and return.

"Opposing the 'fair mushers' will
be some of the greatest dog racers in
the world, led by Earle Brydges, who
is training his dogs at Lake Placid,
New York, to defend his champion-
ship at The Pas, and Engle St. Go-
dard, winner of the major eastern
honors last year. Leonard Seppala,
wizard racer from Alaska, is also
entered.

The carnival week will bring a motley
throng to the little frontier town.
Boarded trappers and prospectors
from the barren lands will mingle
with government officials and busi-
ness and industrial leaders of the
west. Seven girls from various points
in western Canada are entered in the
carnival queen contest and a complete
programme of sports events has been
arranged, including a bonspiel,
freight dog races, children's sports
and Indian tribal ceremonies. Old
timers' dances will be a feature.

Mrs. Jeufa H. Thompson, sister of
Mrs. Jane Fleming, of Nanton, Al-
berta, died at Brattleboro, Vermont,
on January 17th. She formerly re-
sided at Great Village, Nova Scotia.

A Valentine dance will be held in
the Kootenay hall at Natal on the
night of Monday, February the 16th;
music by The Troubadours' dance or-
chestra.

Auto Driver: "Have you some of
that gasoline that stops knocking?"

Attendant: "Yes, sir."

Auto Driver: "Then, give my wife a
glass."

Here and There

(613)

The first electrically-driven tug
to be built in Canada was launched
at Lauzon, Quebec, recently, when
the "Prescott", Diesel-driven tug
for the Canadian Pacific Car
and Passenger Transfer Company's
service between Montreal and
Quebec, slipped into the waters
of the St. Lawrence after the tradi-
tional bottle of champagne had
been broken against her bows by
Mrs. M. McDuff, wife of the man-
ager of the Canadian Pacific Great
Lakes Steamship service. It is the
first electric tug to be built in
Canada, and is designed to tug
a three-track railway car-float with
accommodation for 16 hundred-ton
cars.

Canada is taking advantage of
all opportunities to fight tubercu-
losis and I think is far ahead of
England in the matter of sending
students to sanatoria to make an
intensive study of the subject, said
Dr. J. A. Coutts, of London, mem-
ber of the group of British Tubercu-
lar experts, interviewed about
S. S. Montclair, on his return to
England after some weeks' stay in
the Dominion.

Stating that the Canadian Cham-
ber of Commerce official tour of
Japan and China, leaving Vancouver
and Victoria October 16 aboard
S.S. Empress of Russia, offers a
splendid chance to emphasize Cana-
da's position as a trading nation,
Col. J. H. Woods, Calgary, pub-
lisher and president of the Cana-
dian Chamber of Commerce, speak-
ing to 300 members of the Vancou-
ver Board of Trade in an address
at the Hotel Vancouver recently,
urged Canadians to take full op-
portunity of the chance afforded by
the tour.

Canada's wild life has a capital
valuation of one billion dollars and
represents a yearly business turn-
over to the Dominion of about
\$45,000,000, Dr. H. F. Lewis, of
Ottawa, the Interior, told the
delegates to the Provincial
Dominion game conference at Ot-
tawa the other day. The valuation
includes the fur harvest, game
fish and their attendant effect upon
the manufacturers of firearms and
fishing tackle not to mention rail-
ways, tourist camps, magazine pub-
lishers and others who derive a
certain revenue from this source.

Badges will be worn by all big
game hunters in New Brunswick
during the season opening Septem-
ber 15 for deer and October 1 for
moose. During the recent year
all non-resident anglers in New
Brunswick have worn badges and
the system has proved so satisfac-
tory as to render extension of the
plan to shooting advisable.

This year's crop of grapes in the
Niagara fruit belt, between Hamil-
ton and Niagara Falls, Ont., is ex-
pected to reach about \$8,000,000
lbs., an increase of 15 per cent
over the 1929 crop. The crop is
now being harvested.

A shipment of 128 live cattle
from farms in Ontario went for-
ward recently to England, the first
in 18 months. It was consigned
to buyers in Manchester. The ship-
ment, though comparatively small,
is regarded by the live stock trade
as marking resumption of Canada's
export trade in cattle to the
British market.

First she's in your thoughts a lot,
She has many charms;

Soon she's in your motor car;

Then she's in your arms.

Then she's in your family;

Oh, lackaday,

Then of course for evermore

She's in your way.

"MURDER," STATES MINISTER ABOUT CUETT SLAYING

LUNenburg, N.S., Feb. 2.—De-
claring the death of Captain William
Cuett to be "nothing more nor less
than murder on the high seas," Rev.
Major W. E. Ryder in a brief address
in the course of the public funeral
service here Sunday pointed to the
death of the Josephine K's captain
as "one of the inevitable tragedies
that follow the hypocrisy of prohibi-
tion."

Making clear that he was not just-
ifying the business in which Captain
Cuett was engaged when the United
States coastguard fired on his vessel
off Anbros Light a week ago, the
rector voiced a demand for "fair play
and justice."

"This tragedy must not be hushed
up," he declared. "Incidents of this
sort are becoming almost a daily oc-
currence. They are evidence of the
futility of trying to make a country
dry by prohibition. I am confident
that British justice will see fair play
meted out."

Major Ryder, speaking to the hun-
dreds who thronged St. John's Angli-
can church for the service, paid high
tribute to Captain Cuett as "a fine
churchman, thoroughgoing and well
instructed, a good husband and
father, a good friend and a master
mariner."

ROAD NOT FOR MOTORS

Prosecution and conviction of a
Bermuda company for operating a
tractor on the public highway brings
to light once more the fact that there
does exist on the face of the globe at
least one country where there are
roads which have not yet yielded to
the requirements of transportation.
The legislation which prohibits the
use of motor cars on the public high-
ways of Bermuda was passed in 1908,
and this court case is the second since
the law was applied. The intention
of the legislation was to halt motor
cars from the roads on the expressed
ground that such roads are unsuited
to motor travel. The tractor in ques-
tion was being used by a railway
company to draw a stone-cutter from
place to place, and the plea was made
that it should therefore be exempt
from the provisions of the act. This
plea was in vain, however, as the
court imposed a fine of £10. The
tractor was confiscated. The crown
prosecutor pointed out that exemp-
tion would be dangerous, as any kind
of an engine, from a side-car to a
double-decker motor bus, could be
used to draw a stone cutter, and
buses might try to operate on the
highways simply by attaching a
stone-cutter to the rear end.

machinery. Absolutely free to all tractor owners, operat-
ors and anyone interested in mechanical equipment.

Union Tractor & Harvester Company, Limited

THANKFUL

(By Edna Jacques, Moose Jaw)

Naught to be thankful for, did you say,
As you sat by the old garage today.
The crops are poor and the cattle thin,
And the spuds are not what they might have been.
And there isn't much you can sell this year,
You're going to be very hard up you fear.

Well, what if you are, why man alive,
If you have to struggle and skimp and strive,
And pinch a dollar until it hurts,
For winter woollens and shoes and shirts.
We've all been over the trail before,
And poverty's often knocked at the door.

It won't hurt you a bit, old man, you know,
If you have to put the gears in low.
When the crops were good and the prices high,
Say, didn't we roar and spend and fly?
The sky was the limit, we took the r't,
And blew our crops like a millionaire.

But there's always a time when we have to pay,
And the bills pile up for a rainy day.
And you start to think where you might have stood,
If you'd kept your head when the crops were good.
But cars cost money, and trips, Oh say,
The dough has a habit of melting away.

And what crops we had in our countryside,
When the wheat threshed out like a golden tide.
And the gods of harvest with lavish hand,
Scattered his riches across the land.
When the wheat poured out on the grainery floor,
And there wasn't room for a bushel more.

But let's forget what we might have done,
There'll be more harvests and rain and sun,
And he's be decent and take the blame,
And be sports enough to play the game.
And let's come down to earth and stay,
And get a grip on the things that pay.

YES, HE DID

We knew a man who went to a New Year's Party
walking
something
like
this
but when he went home, oh, gosh, he was
walking
something
like
this

Make Some Hot Biscuits Today!

Make a dozen delicious biscuits this way. Sift together twice, 1 cup Purty Flour, 2 cups baking powder, 1 cup salt. Cream 1 cup of lard and butter, and mix with the dry ingredients, using the tips of your fingers. Add 1/2 cup each of milk and water, mixing with knife until you have a very soft dough. Pat out lightly on a mixing board until 3/4 inch thick. Cut out and bake in hot oven for 15 minutes.

These biscuits—made with Purty Flour—will keep moist for several days and may be re-heated without getting dry.

DELICIOUS SAUSAGE ROLLS—can be made from the above dough, but use half the shortening. Roll to about 1/4 inch thick, cover sausages and bake 25 minutes, or until brown, in hot oven (450°).

MEAT PIE COVERINGS using same dough are extra tasty.

Western Canada Flour Mills Co. Limited
Toronto, Winnipeg, Calgary

Look for our Company's name on the Purty Flour sack. It is your guarantee of quality from a responsible milling concern.

WORLD HAPPENINGS BRIEFLY TOLD

A general world disarmament conference will be called in the latter part of January, 1933, the League of Nations Council has decided.

Marshal Henri Philippe Petain, defender of Verdun, became one of the French immortals by election to the French academy, succeeding Marshal Foch.

His once Imperial Majesty, William II, celebrated his 72nd birthday quietly at Doorn House in the Dutch village of his exile.

Maintenance of the present wage scale throughout industry is vital to the return of prosperity, is the belief of John L. Lewis, president of the United Mine Workers of America.

Captain Einar-Paul Lundborg, Swedish aviator who rescued Captain Noble in the disastrous Italian flight, is dead of injuries received in an airplane crash.

The Salvation Army receives approximately 200,000 pounds (about \$1,000,000) for "social and emigration work," under the terms of the will of the late John Brownson Scott, Lancashire aluminum and brass magnate.

The municipality of Ahmedabad, India, has decided not to observe His Majesty's birthday, June 3, in protest against the "repressive policy of His Majesty's representatives." It is explained that the King personally was held in high regard.

The British Government has made formal representations to the U.S. State Department regarding "unsatisfactory conditions" under which British subjects are being held at some centres and particularly at Seattle, Washington, for deportation.

Preparations are being made for the taking of the 1931 census of Canada, where an army of government workers will visit every Canadian home and take note of the number, sex, religion, nationality and other details of the occupants.

Still Giving Out Decorations

Berlin Lawyer Proud Of Recognition From Ex-Kaiser

The former Kaiser is still shining out decorations although in exile. "As a sign of my thankful recognition of your successful legal work and your proved true conviction in your right against malice and spite, I bestow upon you the cross of Knight of my Royal House Order of Hohenzollern (signed) Wilhelm Imperator Rex."

This is the text of the imperial certificate which a Berlin lawyer, P. Bloch, is proudly showing his friends.

How To Lose Fat And Get That Youthful Feeling

Over in Great Britain when a man is feeling "a fit and a biddle" and looking the "picture of health" they say: "HE'S GOT THAT KRUSCHEN FEELING."

That means he takes his little dose of Kruschen Salts every day. It's the same in the U.S.A.—in Germany—in Holland—in Australia—in South Africa, for Kruschen Salts are now sold the world over.

Kruschen Salts is not only a salt—it is the combination of six salts necessary to healthy life. Take half a teaspoonful a glass of hot water before breakfast every morning, modify your diet and exercise regularly. But don't make a morning of Kruschen not only puts and keeps the stomach, liver, kidneys and bowels in a splendid healthy condition, but purifies your blood-stream, and sends new life and activity to every part of your body.

MacMillan Planning Northern Expedition

Has Ordered Airplane For Use In Mapping Unexplored Area

Commander Donald B. MacMillan, veteran Arctic explorer, has revealed plans for an expedition this summer to explore ice-bound territory north of Labrador.

The commander has placed an order at Los Angeles, Cal., for an airplane to be used for mapping the unexplored area north of Nain, Labrador, and in which, he said, he hoped to reach the great ice cap of Baffin Land.

Charles Rocheville, Los Angeles' plane designer, who went with MacMillan into the Arctic in 1926, will go along again as chief pilot.

MacMillan said three ships would carry a party of 50 men to Nain, the base of the expedition. They are his own auxiliary schooner, a similar ship carrying Dr. Alexander Forbes of Boston, and a third vessel under the direction of Sir Wilfrid Grenfell of St. Anthony, Newfoundland. The first objective is a territory to the west of the coast line 250 miles north of Nain.

"With an aerial camera we can place this district accurately on the world map," MacMillan said. MacMillan said he would sail on June 20.

Valuable Relic For National Museum

Old Indian Tomb Elaborately Carved Found In B.C.

An Indian tomb, probably the last of its kind, has been received at Ottawa from British Columbia and will be added to the collection of almost priceless Indian relics in the National Museum. The tomb is the work of some member of the Musqueam, a tribe of which only some 50 remain.

The discovery was made on the north shore of the Fraser River near Vancouver by Harlan I. Smith, Dominion anthropologist.

Elaborately carved, the relic takes the form of a wood sepulchre mounted on a boat-like platform about eight feet in length. When found the upper part of the tomb, which is shaped like a large box, contained bones which were later before being taken to Ottawa. Mr. Smith believes the sepulchre contained two bodies, probably those of a chief of high rank and his wife.

The date of preservation indicates the tomb is about 75 years old. Only one other example of this type is known.

British Empire Fair

Forty-Eight Canadian Firms and Institutions Will Have Exhibits At Buenos Aires

Forty-eight Canadian firms and institutions have advised the Department of Trade and Commerce of their intention of exhibiting at the British Empire Fair to be held in Buenos Aires from March 14th to April 27th, which will be opened by H. R. H. the Prince of Wales. Every province is contributing displays. There are firms from Montreal; these include the two transcontinental railways, the Royal Bank of Canada and the Sun Life Assurance Company, which are national in character. Seven firms have their headquarters in Toronto, seven in Brantford, three in Hamilton, two in Weston and three in Ottawa, though the latter include the Department of Agriculture and the National Art Gallery.

Flaw Long Distance

Royal Air Force Covered Many Miles In Exercises

In the two days and three nights occupied by the Air Exercises of the Royal Air Force last year, British service aircraft flew a distance equivalent to more than 12 times round the world at the equator. Two hundred and fifty aeroplanes took part in 63 1/2 hours of ceaseless air "war" between mythical lands dubbed "Red Colony" and "Blue Colony." They flew by night and day and frequently in bad weather. Most machines were employed intensively, as in actual warfare.

Makes Fitting Easy

Special shoes partly made of a transparent material have been introduced by a Paris shoe store to aid men and children in trying on footwear. These transparent shoes are carried for each model in the store, and they are said to aid appreciably in determining where the foot is placed, and consequently in choosing a perfect shoe.

Small Child: "We want to buy a ticket."

Box-Office Clerk: "But there are two of you."

"Well, aren't we half-sisters? Add that up."

People asked on quick way to find out what's new in the world of science, medicine, and discovery, look for EMPLE from drugist today.

British Machine Wins

Belgian Government Places Order For Fighting Aeroplanes

In a competition held in Belgium to select fighting aeroplanes for the Belgian Air Force the winning machine was the British "Firefly II," designed and built by the Fairey Aviation Company, of Hayes, Middlesex, England, and driven by a Rolls-Royce engine of 550-h.p.

It is claimed that this machine is the fastest aircraft of its type in the world, with a speed of more than 200 miles an hour, even when carrying full military load.

The Belgian government has ordered 45 of these machines.

Bird Banding

Obtaining Information Regarding Life History and Migration Habits

Through the voluntary efforts of persons throughout Canada and the United States, aluminum bands or rings are being placed on the legs of wild birds in an endeavor to obtain information concerning the migration and life histories of our native birds. Bird banding is a co-operative effort in which the National Parks of Canada Branch, Department of the Interior, Ottawa, and the Biological Survey, United States Department of Agriculture, Washington, D.C., take joint action.

Moose Jaw Board Of Trade

Instructive Film Is Shown At Annual Meeting Held Recently

At the annual meeting of the Moose Jaw Board of Trade on January 15th, a novel and instructive feature was the showing of a film made by the Provincial Government dealing with the natural resources of the province. This film, it is said, proved a revelation to many of the members who were not fully aware of the extent and variety of the resources of the province.

Octopus Caught Off B.C. Coast

An official report states that over 55,000 pounds of octopus were caught in 1929, and over 28,000 pounds in 1928, off the B.C. coast. They are the incidental product of other fishing operations, taken, for the most part, in the nets of small dragners.

Feeling Was Mutual

"Daughter," said the father sternly, "I don't like that young man you go out with."

"Yeah!" retorted daughter. "Well, don't worry, you're simply poison to him, too."

Tourist (in mining town)—Is this a healthy place to settle in?

Hotel Proprietor—It is that, sir; but it's a most unhealthy place if you don't settle.

SUNDAY SCHOOL LESSON

FEBRUARY 8

JESUS THE WORLD'S TEACHER

Golden Text: "As ye would that men should do to you, do ye also to them: for this is the law and the prophets." Luke 6:31.

Lesson: Luke 6.
Devotional Reading: Proverbs 3:13-18.

Explanations and Comments

THE LAW OF LOVE, verses 27-31.—But I say unto you that hear: here Jesus turns from the worldlings upon whom He has been pronouncing His words to be ruled by love in their treatment of their enemies. The Greek word for "love" in our text is *agape*, which means a love that is not demanded, but a natural and spontaneous affection (hospitality), but with a supernatural Christian love that comes by grace ("agape"). At the time when Jesus addressed these words to the disciples, how often an enemy was considered noble. How often gloated over the misfortunes of an enemy, and thought himself fortunate on his death bed that he could say that no one had done more good to his friends nor more mischief to his enemies!

The Goodness Expected Of Christ's Followers, verses 31-35a. If you love them that love you, if you do good to them that do good to you, what kind of thanks have you, what kind of reward do you deserve? for even sinners love those who love them. Love given for love is only glorified selfishness. Show your love by unselfishness, by loving your enemies as well as your friends; by doing good to those who do evil to you, as well as to those who treat you well; by lending to those from whom nothing will be received as well as to those who will return the favor. And the great argument is that even sinners do good. Those that do good to them, tend to sinners, expecting to receive as much in return. Of following the law of love is expected.

Kindness and Mercy, verses 35b, 36. Do all things—love your enemies, do them good, and lend, never despairing—and your reward shall be great—ye shall be sons of God, for He is kind toward the unthankful and evil. Be merciful even as your Father is merciful.

"It is an attribute of God Himself, and earthly power doth then show likest God's."

—Shakespeare.

Be Charitable In Judgment and Generous In Giving, verses 37, 38. Judge not, and ye shall not be judged; and ye shall not condemn, and ye shall not be condemned; release, set free, a debtor or offender, and ye shall be released. These are general statements which are not to be taken without qualification. The example of Jesus Himself shows when He judged and condemning is a duty. Read Matthew 18:15-17. The Ten Commandments, the Golden Rule, and Judge others as you would that others should judge of you.

"An otherwise beautiful character is often made almost repulsive by the single bad habit of censoriousness. It is one of the temptations of the good to indulge in harsh judgment of the faults of others. Cultivating a stern conscience merely for the sake of flaunting goodness is no more Christlike, and no more heart-enriching and satisfying, than giving to make a display with money."

The Loudest Noise

A Montreal scientist says there is too much noise in the world, but fails to point out that the loudest sound of all is that made by the ticking of the clock in a store that does not advertise.

COUGHS, COLDS

Dangerous complications can quickly develop if coughs and colds are neglected. **SPORN'S COMPOUND** is the first sign of trouble treat your system with this reliable remedy.

Printed by license owners every-where. Beware of cheap imitations. **SPORN'S MEDICAL CO., Dept. 428, London, Ind.**

Airplane That Floats

Successful Test Is Made Off the Coast Of England

A British Royal Air Force officer successfully landed a specially equipped airplane on the sea off Felixstowe, and the plane remained afloat long after the pilot, uninjured but drenched to the skin, was taken off by a rescue boat.

The plane used in the experiment was an ordinary service machine with certain modifications intended to keep it afloat for at least four hours after alighting on the sea. For this purpose the sides of the fuselage had been made to open outwards by operation of a lever in the cockpit. This was for the purpose of releasing air filled bags designed to keep the machine afloat.

When Squadron Leader Goodwin landed the plane on the water he switched off the engine, emptied the gasoline tank and released flotation bags. He was free from the usual safety belt in case things went wrong and he had to swim from the plane. In addition, he had padded the lower side of the top plane with spongelike rubber to soften the blow in case it struck his head when the plane hit the water.

Inside the fuselage were bottles of compressed air communicating with the rubber and canvas flotation bags, which, when the sides of the fuselage dropped outward, were free to float beneath the top wing of the airplane, thus keeping the machine afloat.

The test worked well. Though the airplane, when it landed on the water sank for a few seconds until only a small part of the upper structure was visible. The flotation bags brought it to the surface again and rescue boats took the pilot from the cockpit while the machine was left to complete a four-hour floating test.

Accidents in British factories in the last year numbered nearly 150,000.

Local and General Items

Rev. A. S. Partington attended the Anglican Synod at Calgary this week.

Miss Doris McDwen, of Blaimore, has taken a position on the staff of the Macleod Gazette.

T. J. Moore, of Calgary, was an interested witness to the hockey game at Coleman on Monday night.

A dance will be held in the Union hall at Frank on Monday night, under auspices of the Polish Society.

Rev. J. E. Murrell-Wright, formerly of the Calgary Anglican diocese, died at Toronto on Tuesday.

A whist and bridge drive will be held in the Columbus Club on Thursday next, commencing at 8 o'clock.

The Drumheller Mail remarks: The Blaimore trio—Dicken, Kemp and McVey—play a nice brand of combination hockey.

Flesh gashes galore inflicted upon Tony Vejprava in recent games are accredited to one Bill Gates, of the Coleman hockey team. Some sportsmanship(?)

A dance will be held in the K.P. hall at Coleman on Monday night next, music to be furnished by the new Night Hawks five-piece-orchestra.

The heading of an article in an exchange reads: "Fernie Burns Super." Upon inquiry we find that the Scotch folk allowed no food stuffs to go up in smoke.

Dr. W. G. Carpenter, of the provincial school of technology and art at Calgary, has been elected first vice-president of the Baptist Union of Alberta.

After falling out for about a week, the Turner Valley-Okotoks Imperials gained the lead in the South Alberta league through defeating the High River Fliers 2-1 on Saturday night.

We felt like walking out from a church service on Sunday last when the congregation engaged in singing "Many giants great and tall, stalking through the land, heading to the earth might fall, etc."

Increase use of the public library has made it advisable to increase the library hours. We trust the public will appreciate this progressive step by making still more use of the splendid service offered. The hours now are: Tuesdays, Thursdays and Saturdays from 7 to 9 p.m.

Never was a forward line more fittingly named than that of the Turner Valley-Okotoks Imperials—Kemp, McVey and Dicken—referred to by Alberta papers generally as "Alberta's Pets." Their equal has yet to be found, and why shouldn't they be pets?

Shoes made of codfish skin, tanned like leather, are to be part of women's wardrobe. A concern in Lynn, Massachusetts, has started work on salesman's samples. The shoes suggest the lines of the sacred cod, with its eyes and gills, fins and tail, as well as the scaly markings. Livings are of deep blue, suggesting the ocean, and laces are like fish lines, the ends being tipped with imitation hooks.

Here are some figures showing the money spent on liquor purchased at government stores. From 1924 to 1930 inclusive at Blaimore vendor's store was spent \$308,651.77; in Coleman \$205,664.27; total \$514,316.04. If the prohibition people were consistent, they would make their attack on the liquor stores and not the beer parlors. Figures on beer sales are not available, but it is safe to say they are small in comparison with the foregoing figures. A man can buy one glass of beer and pass on; at a liquor vendor's he usually purchases the "hard stuff." And that's where the greater evil lies.—Coleman Journal.

Dandelions were picked in Blaimore on January the 30th.

VALENTINE TEA—Feb. 14th, Moose hall, 3 to 6 p.m., held by Servian Group.

The residence of Percy Barradell at Calgary was considerably damaged by fire on Friday last.

Hon. H. B. McGivern, formerly M. P. for Ottawa, died at Victoria on Tuesday evening.

A severe earthquake in New Zealand resulted in a death toll of around one thousand.

Decision of the Alberta government on the gas exportation question is not likely to be announced for the next ten days, according to a statement of Premier Brownlee on Monday.

The Blaimore hockey boys desire most sincerely to thank Bellevue fans for valuable assistance rendered Coleman last week through rooting. Coleman needs it all.

All those who have not procured their motor licenses for the year 1931 on or before February the 15th will be prosecuted, according to announcement made by Inspector Scott, A.P.P.

At a recent council meeting, an applicant for relief work stated that his son was earning only enough to supply him with cigarettes and tobacco. Here's a chance for anyone feeling helpfully disposed.

A local woman from Aberdeen was suggesting to her husband that it was about time she possessed a motor car. "Na, Na!" he replied, "Ye'll just be content wi' the splendid carriage nature has given ye!"

Ivan Thompson, aged nineteen years, and his passenger Donald McKenzie, eighteen years, were instantly killed on Sunday afternoon, when the plane in which they were up for a pleasure flight hurtled earthward in view of a large number of baseball fans at Lethbridge.

Messrs. W. H. Chappell and W. A. Beebe left by Sunday night's train for Edmonton, where they will attend the convention of Alberta School Trustees' Association, the former as a member of the executive, the latter as official representative of Blaimore School District No. 628. While in the capital, Mr. Beebe, representing also the municipality of the Town of Blaimore, will take various matters up with the minister or deputy minister of municipal affairs, affecting the interests of Blaimore.

PUBLIC NOTICE

TO ALL MEN BY THESE PRESENTS

Notice is hereby given that The National Slovak Society of United States of America, located at Pittsburgh, Pennsylvania, U.S.A., has appointed GEORGE KLESKEN, miner, of the municipality of Bellevue, Alberta, Dominion of Canada, chief agent of the Company in Canada, true and lawful attorney, to establish and maintain at Bellevue an agency of the said Company, to be called the chief agency thereof in Canada, and the said Company doth hereby declare that the agency to be established and maintained shall be the head office of the said Company in Canada, and the said Company doth hereby authorize its said attorney to receive process in all suits and proceedings against the Company, in any province in Canada in respect of any liabilities incurred by the said Company, therein, and also to receive from the Minister of Finance and Receiver General, and the Superintendent of Insurance, all notices which the law requires to be given, or which it is thought advisable to give. And the said Company doth further declare that service of process for or in respect of such liabilities and the receipt of such notices at said office or chief agency, or personally on or by said attorney at the municipality of Bellevue shall be legal and binding on the said Company, to all intents and purposes whatsoever. In witness whereof the President and Secretary of the said Company have heretofore subscribed their names, and the said President has heretofore affixed the corporate seal of the said Company this 15th day of December, in the year of Our Lord one thousand, nine hundred and thirty.

JOHN SIMKO, President.
